

U.S. Entrepreneurship Certification Examination

Credentials for the Innovation & Gig Economy!

Entrepreneurship skills are modernized workforce readiness skills that today's employers say they want in new hires

The customized U.S. Entrepreneurship Certification Examination (certificate and digital badge included):

- ✓ Assesses entrepreneurship knowledge, skills, and mindsets required for high school students and adult learners to successfully start a business in any career field, reducing the risk of business failure
- ✓ Is aligned and cross-walked with CTE entrepreneurship competencies and the National Content Standards for Entrepreneurship Education
- ✓ Was created in partnership with subject matter experts in academia and industry, including leaders at America's Small Business Development Center (SBDC) and SCORE
- ✓ Is a single exam that covers the content of other credentialing organizations' multiple exams at a lower cost and a higher pass rate
- ✓ Exam Resources include a Vocabulary List, Reading Guide with access to a free e-textbook for students and educators (instructional resources included), detailed Study Guide (28 pages) that also serves as a curriculum framework, and two Practice Exams (118 questions each)

The Online Entrepreneurship Institutes are aligned with the U.S. Entrepreneurship Certification Examination, equipping educators with the content knowledge, instructional strategies, curriculum, and 400+ classroom-ready resources that they need to prepare high school students and adult learners to pass the Exam. 3-Hours of university undergraduate or graduate credit is optional for \$135.
